Assembly SMART Employee

Employment Type
Full-time

Industry
Industry

Job Location
Wijchen, Gelderland, Netherlands

Base Salary
2.583,35

Date posted
October 29, 2025

Description
We are currently seeking a skilled and motivated Assembly SMART employee to join our team. In this role, you will be responsible for assembling components, maintaining quality standards, and troubleshooting any issues that may arise during the assembly process.

As an Assembly SMART employee, you will work closely with a team to ensure that all components are assembled accurately and efficiently. Your attention to detail and commitment to quality will play a vital role in meeting the production targets and delivering high-quality products to our customers.

You will be working at our client's facility, a renowned company known for its commitment to excellence in manufacturing and assembly.

Job description
As an Assembly Smart Employee, your primary responsibility will be to assemble technologically advanced products, drawing upon your expertise in car mechanics and related assembly work. Your prior experience as an assembly worker in the mechanical or car mechanics sector will be essential as you contribute to the production of high-quality smart devices.

In this role, you will work closely with a team to ensure that all components are properly assembled and integrated. Your attention to detail, precision, and understanding of car mechanics will be crucial as you follow assembly instructions and use various tools and equipment to complete the assembly process.

It's important to note that the role may involve repetitive tasks, and you should be comfortable performing such tasks with accuracy and efficiency. Your commitment to maintaining quality standards throughout the assembly process will contribute to the overall success of our production operations.

Job Benefits
What we offer you as an Assembly SMART Employee:

- A challenging position in an innovative and growing organization;
- Opportunities for personal and professional development;
- A pleasant working environment with motivated colleagues;
- Competitive salary and benefits package.

Qualifications
What we expect from you as an Assembly SMART Employee:

- Strong skills in car mechanics and related assembly work;
- Proven experience as an assembly worker in the mechanical or car mechanics sector;
- Ability to perform repetitive work without difficulty;
- Proficiency in Dutch or German;
- Possession of accommodation in the area of Nijmegen;
- Own transportation to work.
