Repair Technician Eindhoven

Description
We are currently seeking an accurate and technically skilled Repair Technician to join our client's team in a high-tech production environment. In this position, you will be responsible for assembling and repairing high-quality technical packaging used to protect vulnerable industrial components.

Do you have an eye for detail, enjoy working with tools, and are you able to work independently and precisely? Then this position could be a great fit for you.

Responsibilities
Our client specializes in producing and maintaining high-quality technical packaging solutions for valuable industrial products. These packaging solutions are made from materials such as plastic, wood, and metal and are designed to protect delicate components during storage and transportation.

As a Repair Technician, you will assemble and repair technical packaging according to instructions, protocols, and technical drawings. Accuracy and attention to detail are essential, as all packaging must meet strict quality requirements and specifications.

Job Benefits
What do we offer you as a Repair Technician?

- An attractive gross monthly salary of €3,286.39;
- A travel allowance of €0.25 per kilometre from 10 kilometres one way;
- A full-time position in a two-shift system;
- Additional shift allowances in accordance with the collective labour agreement;
- Plenty of opportunities for professional growth and development;
- The opportunity to gain valuable knowledge in an innovative high-tech working environment;
- A varied and independent position within a professional organization;
- A solid pension scheme from your first working day.

Qualifications
Your responsibilities as a Repair Technician will include:

- Assembling and repairing technical packaging solutions according to instructions and protocols;
- Working with large plastic and wooden crates;
- Performing assembly, packaging, and cleaning activities;
- Conducting accurate quality measurements and inspections;
- Working based on technical drawings and work instructions;
- Using different materials, including plastic, wood, and metal;
- Maintaining and correctly using tools and equipment;
- Noticing and reporting any deviations;
- Working independently, accurately, and in a structured manner.

You will work in a two-shift system, providing variety in your working schedule and additional shift allowances in accordance with the applicable collective labour agreement.
